## **TEST SUMMARY REPORT**

**Introduction:** This document summarizes the testing results of the database in the component

Library-2.

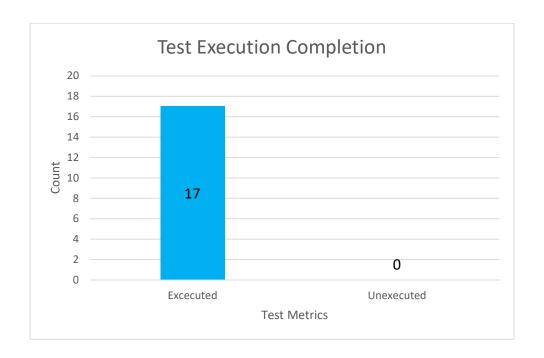

**Test items:** Library-2 – Version 2.0

**References:** Test cases, Bug reports on Bugzila.

### 1. Test Case Information:

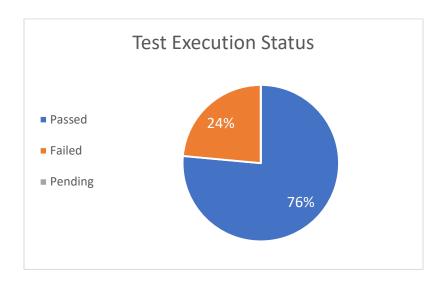

## a. Test Execution Completion:

Total test cases planned:	<b>17</b>
Test cases executed:	17
Test cases unexecuted:	0

## **b.** Test Execution Status:

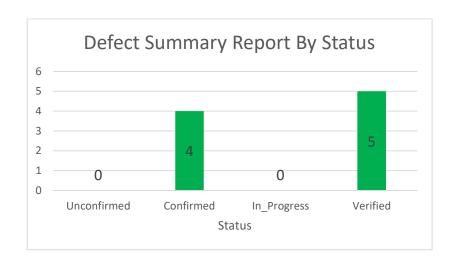

Total test cases executed:	17
Test cases passed:	13
Test cases failed:	4
Test cases pending:	0

# 2. Defect Report Information:

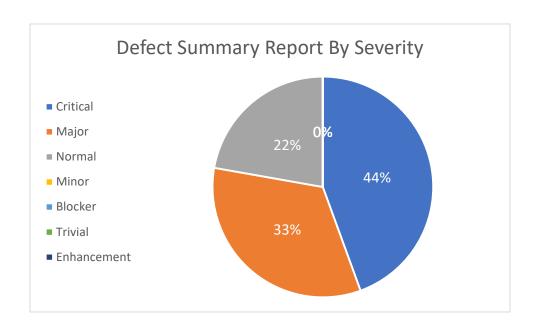

# a. Defect Summary by Status:

Total defects found:9Defects Unconfirmed:0Defects Confirmed:4Defects In\_progess:0Defects Verified:5

## b. Defect Summary by Severity:

Total defects found:	9
Critical	4
Major	3
Normal	2
Minor	0
Blocker	0
Trivial	0
Enhancement	0

## **Conclusion:**

100% planned test cases have been executed, with 75% test cases passed as expected and 25% test cases failed.

The defects related to these failed test cases reported in the bug reports in Bugzilla.

#### **TEST CASES**

#### **Library-2 table**

ISBN-13 Unique numeric digits (13 digits)

Title Text, up to 60 characters, including blanks

Copyright Year (4 digits)

Publisher Text, up to 60 characters, including blanks

AuthorLast Last name of author, up to 20 characters, including blanks

AuthorFirst First name of author, up to 20 characters, including blanks

AuthorMI Middle initial of author (optional)

**Test Case 1:** Attempt to enter a valid complete record into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.		As expected
2	Click on the field "ID" > type in the 13 digits as follow:	Entry accepted	As expected
	9780849396403, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.		
4	Continue in the field "Copyright" > type in 4 digits:	Entry accepted	As expected
	"2010", press tab.		
5	Continue in the field "Publisher" > type in "Pearson",	Entry accepted	As expected
	press tab.		
6	Continue in the field "AuthorLast" > type in	Entry accepted	As expected
	"Veenendaal", press tab.		
7	Continue in the field "AuthorFirst" > type in "Van",	Entry accepted	As expected
	press tab.		
8	Continue in the field "AuthorMi" > type in middle	Entry accepted	As expected
	initial: "E", press tab.		

**Test Case 2**: Attempt to enter an invalid digit of ID into the database

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.		As expected
2	Click on the field "ID" > type in the 9 digits:	Error – Entry not	As expected
	"978084939", then press tab.	accepted	
3	Back to the same field in step 2 > type in the 14 digits:	Entry not	As expected
	"97808493964034", then press tab.	accepted, only	
		display 13 digits	

**Test Case 3:** Attempt to enter a blank title into the database. **(Existing Bug 10)** 

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected

	press tab.		
6	Continue in the field "AuthorLast" > type in	Entry accepted	As expected
	"Veenendaal", press tab.		
7	Continue in the field "AuthorFirst" > type in "Van",	Entry accepted	As expected
	press tab.		
8	Continue in the field "AuthorMi" > type in "Er", press	Entry accepted	As expected
	tab.		

**Test Case 4:** Attempt to enter a 60-character title into the database.

No.	Details	Expected	Actual
		Results	Results
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" $>$ type in the 10 digits: "9780849396",	Entry accepted	As expected
	then press tab.		
3	Continue in the field "Title" > type in 60 characters:	Entry accepted	As expected
	$\hbox{``Software Testing Software Testing Software Testing Software Testing''},$		
	then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in "Pearson", press tab.	Entry accepted	As expected
6	Continue in the field "AuthorLast" > type in "Veenendaal", press	Entry accepted	As expected
	tab.		
7	Continue in the field "AuthorFirst" > type in "Van", press tab.	Entry accepted	As expected
8	Continue in the field "AuthorMi" > type in "E", press tab.	Entry accepted	As expected

**Test Case 5:** Attempt to enter a 61-character title into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ISBN-13" > type in the 13 digits as	Entry accepted	As expected
	follow: 9780849396403, then press tab.		
3	Continue in the field "Title" > type in 61 characters:	Entry not	As expected
	``Software Testing Software Testing	accepted – only	
	TestingS", then press tab.	display 60	
		characters.	

**Test Case 6:** Attempt to enter invalid copyright into the database

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.		As expected
2	Click on the field "ISBN-13" > type in the 13 digits as	Entry accepted	As expected
	follow: 9780849396403, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.		
4	Continue in the field "Copyright" > type in "a", press	Entry not accepted –	As expected
	tab.	only digit number	
		accepted.	
5	In the same field "Copyright" > type in 5 digits	Entry not accepted –	As expected
	"20100", press tab.	only accept 4 digits.	

Test Case 7: Attempt to enter a blank publisher into the database. (Existing Bug 13)

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits:	Entry accepted	As expected
	"9780849396", then press tab.		
3	Continue in the field "Title" > type in the text "Software	Entry accepted	As expected
	Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > press tab to leave the	Entry accepted	Entry not
	field blank.		accepted
6	Continue in the field "AuthorLast" > type in "Veenendaal",	Entry accepted	As expected
	press tab.		
7	Continue in the field "AuthorFirst" > type in "Van", press	Entry accepted	As expected
	tab.		
8	Continue in the field "AuthorMi" > type in "Er", press tab.	Entry accepted	As expected

**Test Case 8:** Attempt to enter a 60-character publisher into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396, then press tab.		
3	Continue in the field "Title" > type in the text "Software	Entry accepted	As expected
	Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in 60 characters:	Entry accepted	As expected
	``Pearso		
	Pearso", press tab.		
6	Continue in the field "AuthorLast" > type in "Veenendaal",	Entry accepted	As expected
	press tab.		
7	Continue in the field "AuthorFirst" > type in "Van", press tab.	Entry accepted	As expected
8	Continue in the field "AuthorMi" > type in "Er", press tab.	Entry accepted	As expected

**Test Case 9:** Attempt to enter a 61-character publisher into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396, then press tab.		
3	Continue in the field "Title" > type in the text "Software	Entry accepted	As expected
	Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in 61 characters:	Error – Invalid	As expected
	"PearsoPearsoPearsoPearsoPearsoPearsoPearso",	length – Entry not	
	press tab.	accepted	

**Test Case 10:** Attempt to enter author's last name up to 20 characters into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396, then press tab.		
3	Continue in the field "Title" > type in the text "Software	Entry accepted	As expected
	Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in "Pearson",	Entry accepted	As expected
	press tab.		
6	Continue in the field "AuthorLast" > type in 20	Entry accepted	As expected
	characters: "VeenendaalVeenendaal", press tab.		
7	Continue in the field "AuthorFirst" > type in "Van",	Entry accepted	As expected
	press tab.		
8	Continue in the field "AuthorMi" > type in "Er", press	Entry accepted	As expected
	tab.		

**Test Case 11:** Attempt to enter author's last name up to 21 characters into the database

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396403, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in "Pearson",	Entry accepted	As expected
	press tab.		
6	Continue in the field "AuthorLast" > type in 21	Error – Invalid	As expected
	characters: "VeenendaalVeenendaalV", press tab.	length – Entry	
		not accepted	

Test Case 12: Attempt to enter a blank last name of author into the database. (Existing Bug 85)

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in "Pearson",	Entry accepted	As expected
	press tab.		
6	Continue in the field "AuthorLast" > press tab to leave	Entry accepted	As expected
	the field blank.		
7	Continue in the field "AuthorFirst" > type in "Van",	Entry accepted	As expected
	press tab.		
8	Continue in the field "AuthorMi" > type in "Er", press	Entry accepted	As expected
	tab.		

**Test Case 13:** Attempt to enter author's first name up to 20 characters into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.		As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396403, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.		
4	Continue in the field "Copyright" > press tab.	Entry accepted	As expected
5	Continue in the field "Publisher" > type in "Pearson",	Entry accepted	As expected
	press tab.		
6	Continue in the field "AuthorLast" > type in	Entry accepted	As expected
	"Veenendaal", press tab.		
7	Continue in the field "AuthorFirst" > type in 20	Entry accepted	As expected
	characters: "VanVanVanVanVanVanV", press tab.		
8	Continue in the field "AuthorMi" > type in "Er", press	Entry accepted	As expected
	tab.		

**Test Case 14:** Attempt to enter author's first name up to 21 characters into the database.

No.	Details	<b>Expected Results</b>	<b>Actual Results</b>
1	Open the database, then open the Library table.	Entry accepted	As expected
2	Click on the field "ID" > type in the 10 digits as follow:	Entry accepted	As expected
	9780849396403, then press tab.		
3	Continue in the field "Title" > type in the text	Entry accepted	As expected
	"Software Testing", then press tab.
